

"GINEX" Goražde

Environmental Policy Statement

UNIS "GINEX" d.d. Goražde Management is fully aware of importance of principles on harmonization of all human activities with nature, and thus, by their comprehensive activities, they join to general efforts aimed to achieve an optimal spending of natural resources and to avoid pollution of soil, air and water as well as to avoid endangering people, plants and animals.

UNIS "GINEX" d.d. Goražde declares and commits itself to inform interested parties, verbally and in written, in case of incidental situation occurrence.

Our motto is:

**Living and working healthy
means
living in healthy environment!**

Our contribution to permanent environment protection and enhancement is comprised in the following:

- ❖ All environmental aspects and environmental impacts related to our products and processes have been acknowledged and assessed;
- ❖ All relevant regional, state and European laws and regulations related to environment protection have been identified and obeyed by us;
- ❖ All processes of our organisation, which do have significant environmental impact, are being measured and assessed in order to minimize negative environmental impacts and to improve those positive ones;
- ❖ We permanently and publicly promote principles of healthy and pleasant environment preservation as in our organisation as in wider social community;
- ❖ We plan and realize programmes and aims for efficient and effective environmental management;
- ❖ We permanently review efficiency and effectiveness of our environmental management system in order to improve environment protection and preservation, in accordance with the sustainable development principles;
- ❖ We develop and motivate environmental awareness among our employees in order to introduce employees with environmental value of our organisation as well as with their contribution, responsibility and obligations in preservation and enhancement of it.

GENERAL MANAGER
UNIS "GINEX" d.d. Goražde

Jusuf Hubjer, techn.eng.
